Laying Groundwork for Success: Technology Planning to Ensure Greater Student Outcomes

Presented by Mary Ann Wolf

Webinar 3: Wednesday, January 13, 2010

Ensuring Technology Remains in the Budget: *With tough budget times, technology can be seen as a "nice to have" but not integral to education. Making the case for technology is often the job of technology directors and this session will highlight key arguments and examples that demonstrate the critical value of technology.*

Presented by Mary Ann Wolf

Webinar 4: Wednesday, February 10, 2010

21st Century Learning: Rhetoric to Practice: Part 1

What is 21st century learning? What does it look like in practice? How will I know it when I see it? What are some models educators might consider in advancing 21st century learning from rhetoric to practice in order to engage all classrooms and schools systemically?

Presented by Cheryl Lemke

Webinar 5: Wednesday, March 10, 2010

21st Century Learning: Rhetoric to Practice: Part 2

The session will explore how to bring 21st century learning to life in the classroom. Using the skills of critical thinking and digital/multimodal learning, the discussion will center on how innovative uses of technology can be used to enable schools to use authenticity and engagement as vehicles for change.

Presented by Cheryl Lemke

Webinar 6: Wednesday, April 14, 2010

**What Will Schools Look Like in 2020?
How Do We Begin To Prepare?**

In this exploration of what schools need to do now to help ensure success in the future, Richardson will focus on the willingness to have our beliefs and ideas challenged by others—what he terms "the willingness to be disturbed." In order to restore hope in education, we must let go of certainty, expect confusion for a time, encourage our teachers to take risks and be okay with not knowing.

Presented by Will Richardson
