BrainPOP Jr. online animated content for K-3

Launched in 2006, BrainPOP Jr. is designed by and for teachers. Its fully integrated online learning units, for use in kindergarten through third grade, encourage further exploration and inquiry while gently introducing children to comprehension strategies and test-taking skills.

Developmentally Appropriate BrainPOP Jr.'s animated topics cover a range of developmentally appropriate topics from tally charts to short vowels and camouflage to the moon.

Interactive Features Writing, drawing, and discussion prompts; interactive games; literary connections; activity sheets; and more.

Aligned With State Standards Resources are searchable by current state standards, grade level, or subject area.

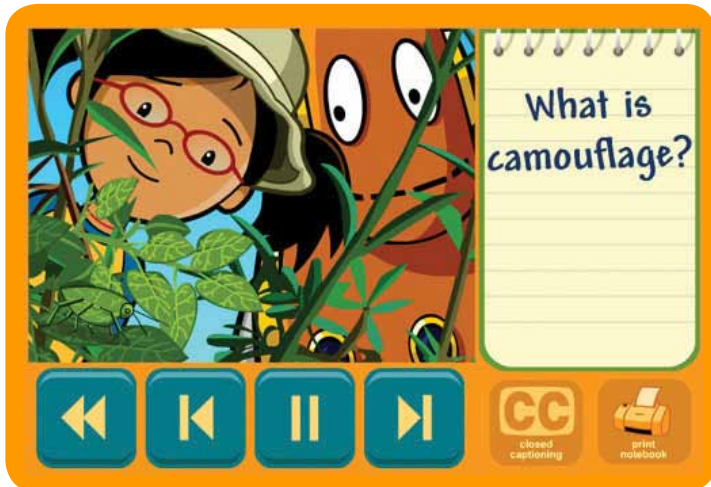

Versatile Compatible with PCs or Macs, projectors, or interactive whiteboards. Can be used one-to-one, in small groups, or in whole-class settings.

Easy to Use All content is accessible online; no installation or downloading required.

Formative Assessment Online and printable quizzes measure comprehension before or after a lesson.

Differentiated Learning Diverse content and resources allow teachers to meet the needs of students with multiple learning styles.

Award-Winning In 2008, BrainPOP Jr. was chosen for inclusion in Apple Education's Recommended Curriculum Collections. *Technology & Learning* magazine honored BrainPOP Jr. with an Award of Excellence in December 2007. Other distinctions include those from the Webby, Interactive Media, and W3 Awards; the FlashForward Film Festival, and AEP.

About BrainPOP

Founded in 1999, BrainPOP (www.brainpop.com) creates animated, curriculum-based content that supports educators and engages students. Our award-winning online resources include **BrainPOP**, for grades 3 and up; **BrainPOP Jr.**, for grades K-3; and **BrainPOP Español**. Our newest resource, **BrainPOP Educators**, features free tips, tools, and best practices by and for our teacher community. Aligned to state standards and easy to use, BrainPOP serves thousands of schools worldwide. We host more than 1.5 million visits to our sites each month, through district, school, media lab, classroom, homeschool, and family subscriptions.
