

WIRELESS SOLUTIONS FOR EDUCATION

Kajeet is a leading provider of secure wireless connectivity solutions for education.

Student Success. Kajeet is committed to connecting every student to the online resources they need to succeed.

CIPA-Compliant Filtering. CIPA-compliant filters provide students with a safe, focused online learning experience.

Compliance Administrator Visibility and Control. The Kajeet Sentinel® platform enables administrators to track program success and control website access, data allocations, and more – all from an easy user interface.

Lifetime Program Support. A dedicated Kajeet Account Manager will be there every step of the way to ensure your program is a success.

SmartSpot®

Mobile hotspots for off-campus Internet access

SmartBus™

Mobile or hard-installed router for WiFi access on the school bus

Connect Suite

Campus-level solutions for prime and failover connectivity

LTE-Embedded Devices

Embedded devices for distance and virtual learning

All Kajeet solutions include Sentinel®, our award-winning cloud-based administrator platform.
