

#ConnectEdNow™

Connect every student, school,
district, and community to a more
reliable distance learning experience.

More than 9 million students in North America do not have adequate access to reliable internet at home – this is often referred to as the “Homework Gap”. The COVID-19 pandemic has exacerbated this problem as many schools shift instruction completely online.

At Kajeet, a core component of our mission has always been to provide safe, connected environment for students and their families. **That’s why we’re offering a new affordable connectivity solution to close the Homework Gap.**

Our ConnectEdNow™ Student Bundle Includes:

- ✓ Kajeet SmartSpot®
- ✓ One Year Unlimited Data
- ✓ Sentinel Platform for CIPA-Compliant Filtering, Device Management, and more!

Limited time offer!

The ConnectEdNow™
Student Bundle expires
December 31, 2020.
