RELIABLE

Reliability is at the core of ENA's voice architecture. Our geographically resilient cloud platform delivers crystal clear audio and video quality and an industry-leading 99.999% uptime.

COST EFFECTIVE

ENA's VoIP and UC solutions are flexible, highly scalable, and offered at a flat monthly rate that deliver savings and a lower total cost of ownership over many on-premises systems.

FEATURE RICH

With multiple package options available, ENA SmartVoice enables you to build a custom phone system tailored for your organization. Choose from our robust set of features, including:

- Pinpoint 911 and automated notifications sent to staff when 911 call is made
- Voice, call management, messaging, and video conferencing
- Integrated mobile and desktop apps
- Auto attendant and hunt groups
- Visual voicemail and transcription
- Call jump (transition calls between devices)
- Portfolio of bell schedulers, door phones, and paging devices

“We selected ENA SmartVoice because it was a hosted system. The fact that we didn't have to buy servers, extra switches and other equipment to run our phone system was a big draw for us. I also knew we could count on ENA's customer support in case we ever had issues. We've used other ENA products in the past, and I know the type of support ENA provides. All of those factors combined made the switch to ENA SmartVoice a no-brainer for us.”

Mark Howell, Manchester City Schools, Tennessee

The Power of Video Collaboration

ENA SmartUC Meet

High-quality, multi-person online meeting and web conferencing made simple

SAVINGS

ENA SmartUC Meet easily and cost-effectively enables distance learning, professional development, and face-to-face meetings through high-quality web conferencing and video collaboration.

SIMPLICITY

Our user-friendly solution seamlessly integrates with ENA SmartVoice for easy deployment, operations, and management. Our powerful work-from-anywhere application is accessible via any computer, tablet, or smartphone that has a connection to the Internet.

SECURITY

ENA's infrastructure resides on dedicated servers, which are housed in SSAE 16 SOC2 compliant datacenters. ENA SmartUC Meet provides a robust set of security features that deliver an efficient and secure real-time HD meeting service, including:

- Firewall compatibility
- Scheduling privileges
- Virtual waiting rooms
- Unique URLs
- Password protected and locked meetings
- Host and client authenticated meetings
- Data and communication encryption

Five Exciting Ways to Use ENA SmartUC Meet

Virtual field trips and lectures

Cross-cultural class exchanges

Enable participation for students out of the classroom

On-line courses for K-12 and higher education

Facilitate professional learning communities among staff

Comprehensive Customer Support

ENA delivers complete end-to-end solutions with comprehensive design, support, maintenance, and monitoring. Our proven approach capitalizes on the combined strength of our expertise, resources, and partners to offer speed, reliability, scalability, best-of-breed technologies, and continuous technology improvements to our customers. It's an approach that begins and ends with our strong commitment to delivering exceptional customer care.

Dedicated Project Management

ENA has a demonstrated track record of meeting and exceeding implementation schedules with our customers. Every implementation has a dedicated project manager who oversees the deployment from start to finish, ensuring your integration remains seamless, stress-free, and on schedule. Whether providing services to a few sites or several hundred, ENA has the personnel, processes, and procedures to deliver on our committed installation timeframes.

24x7x365 Live Customer Support

Our customer support team will move mountains to keep your services operating at peak performance. All calls to our Customer Technical Assistance Center (CTAC) are answered by a live person in the U.S. with the knowledge, experience, and capability to resolve your issue.
