

All-Inclusive Wi-Fi Designed, Delivered, and Managed by Industry-Leading Experts

With ENA's managed connectivity services you don't just get a great service—you gain a committed partner. We take care of everything from start to finish, enabling your team to focus their time and attention on everything else.

Four reasons why you should consider ENA's managed Wi-Fi service

Free your technology staff from time-consuming equipment tasks such as configuration, maintenance, troubleshooting, and upgrading.

Experience robust, reliable, and seamless wireless connectivity throughout your community.

Relax knowing that ENA monitors your network 24/7.

Access monitoring, operational controls, real-time reporting, and analytics via your own customer portal.

ENA Air can help your community...

Organize a contact tracing program to keep your community safe.

Automate anomaly detection, access point configuration, and switch configuration.

Interface new devices seamlessly with your existing technology.

Quarantine compromised devices and access points.

Special Features

- Tailored Design
- Self-Healing Powered by AI
- High Performance
- Management

Benefits of ENA Air featuring Wi-Fi 6

- **OFDMA** – Increase network capacity by serving more packets from more devices
- **MU-MIMO** – Improve client experience in dense environments with simultaneous client data transmissions
- **Boosted Data Rate** – Deploy 2.4GHz or 5GHz bands and achieve exceptionally high transfer rates
- **QAM** – With the new Wi-Fi 6 protocol, quadruple the throughput of your Wi-Fi
- **Save Power** – Reduce the time device radios are engaged to boost power efficiency
- **BSS Coloring** – Deploy color-coded shared frequencies to dramatically increase your network's capacity

ENA expertise and management powered by your distinct vision.

In addition to our all-inclusive ENA Air, ENA provides a variety of network management services designed to ensure communities have state-of-the-art Wi-Fi backed by ENA's peerless support. Whether you're interested in collaborative management of your existing Wi-Fi/LAN or you want a brand new network with flexible management terms, we work hand-in-hand with you to develop a solution that meets your specific connectivity needs.

Because each ENA Air Flex partnership is customized to achieve each customer's unique goals, no two solutions are identical. However, all ENA Air Flex partnerships include these unrivaled benefits:

- 
- Collaborative and flexible management and co-management options
 - Support from the ENA CTAC, ENA's 24x7x365 customer support team
 - Recommended designs and configurations by our world-class engineering team
 - Proactive troubleshooting
 - Assistance with all upgrades and changes
 - Optional new network hardware, design, and implementation
 - Optional ENA on-site support and engineering staff
