

Connectivity for everyone in your community— no exceptions

Thanks to ENA Beacon, your organization can now offer connectivity and deliver essential community services to everyone, no matter their circumstances.

With ENA Beacon, ENA designs a new private LTE network to fit your community's unique needs, oversees the installation and implementation process from start to finish, and provides ongoing monitoring and management of the LTE network with 24x7x365 support for your IT staff.

Features

- Complete solution for private LTE service, including towers, radios, user equipment, software, and management
- Seamless integration with your existing Internet Access and Wide Area Network
- Scalable and flexible designs capable of adapting to changing demands
- Powered by industry-leading, carrier-grade technology
- Backed by ENA's ongoing monitoring, maintenance, troubleshooting, and 24x7x365 customer technical support

Now more than ever, community anchor institutions must first bridge the connectivity gap in order to support their communities. ENA Beacon empowers your organization to do just that, while also maintaining the flexibility to adapt to new needs and opportunities.

ENA Beacon: Connectivity for everyone.

Specifications

- Multiple end user equipment options for optimal connectivity
- Full CBRS Spectrum Access System integration
- Robust and flexible upload and download bandwidth options
