

# Kajeet Distance Learning Bundles

With the increase in online learning as a result of school closures and new health and safety guidelines, it is more important than ever to ensure all students have access to Internet at home.

To support schools and districts with their student connectivity needs, Kajeet has created Distance Learning Bundles. We have taken our trusted wireless solutions, the Kajeet SmartSpot® and Sentinel-Ready™ LTE Chromebook, and bundled them with flexible data plans ideal for distance learning and blended learning initiatives.

## Kajeet Sentinel® Portal

All Kajeet solutions include access to the Sentinel® portal, which allows administrators to manage the program and get key insights into how students are using the devices.

- Data Management
- Filter Management
- Access Controls
- Media Center Capabilities
- Reporting & Analytics

## Why Work with Kajeet

### Your Choice of Network

Because Kajeet works with all the major U.S. wireless carriers, you can pick the network, or networks, with the best coverage in your area.

### Easy to Launch

Devices arrive fully activated, provisioned, and kitted with a carrying case, charger, and quick start guide - making it easy to roll out to students.

### CIPA-Compliant Filters

Built-in filters keep students safe and on-task, while allowing schools and districts to get the most out of their data by blocking high-usage sites such as Netflix and Spotify.

### Lifetime Support

You will receive a dedicated account manager, Sentinel® training, and tier-1 support for parents, students, and educators to ensure your program is a success.

# How it Works

## 1. Choose Your Device & Network

SmartSpot®	Sentinel-Ready™ LTE Chromebook
 <p>The Kajeet SmartSpot® is a filtered Wi-Fi hotspot designed for students. Ideal for any one-to-one program, it allows students to connect to the Internet no matter where they are.</p>	 <p>For students without a device or Internet at home, an LTE Chromebook is the perfect 2-in-1 solution. Students can access the Internet by connecting to a Wi-Fi network or by accessing the LTE network.</p>
<p><b>Available on:</b> Verizon, AT&amp;T, T-Mobile, U.S. Cellular</p>	<p><b>Available on:</b> Verizon, AT&amp;T, T-Mobile</p>

## 2. Choose Your Term Length

SmartSpot®	Sentinel-Ready™ LTE Chromebook
<p><b>4, 6, or 12 months</b></p>	<p><b>12, 24, or 36 months</b></p>

## 3. Choose Your Data Plan

Kajeet Custom Data Plan	Kajeet Complete Unlimited
<p><b>Choose the number of GBs of LTE data per device,</b> per month. All data is pooled and shared across all devices over the full length of the contract terms. This plan includes customizable filters.</p>	<p>You get <b>unlimited LTE data for your devices.</b>* With the Complete Unlimited Plan, you get Kajeet's most popular CIPA-compliant filters (K-8 or 9-12).</p>

\*The Complete Unlimited Plan includes 30GB of LTE data per month. If a device exceeds 30GBs of data usage, the device will be throttled to 500MB per day. There is a 20-device minimum for SmartSpot bundles and a 10-device minimum for Chromebook bundles. Offer subject to change.
